Md. kalim Ansari **Director, CSCBV**

I feel proud to be a part of CSC Bal Vidyalaya initiative as it has lit the torch of Early Childhood Education in rural India. CSC Bal Vidyalaya is different from other schools in my area in terms of use of technology, digital equipment and e-Content that our educators use in classrooms. It has helped us to develop intellectual and mental skills of children in my village. I get respect from the people in my village, because of CSC Bal Vidyalaya. Yet I am new to this field, but the support that I along with educators receive from HO is worth appreciating.

I have been working with CSC Bal Vidyalaya Budhiyakhad as an educator for last one year. My journey has been very rewarding as I received proper trainings on teaching tips, phonics, storytelling, using technology in classrooms etc on a regular basis. Normally teachers teaching in schools in villages do not get such kind of trainings and handholding. I am proud of CSC Bal Vidyalaya that as an educator I grew here professionally. My director Md. Kalim Ansari sir has been very supporting and inspiring for all the staff in school.

Ms. Tabassum Parween **Educator, CSCBV**

I visited around 5 schools in the area to finalize the school for my son MD Avan Ansari and search came to an end at CSC BV. The professionalism of the educators and other supporting staff at CSC BV is unbeatable. I never thought that these small schools are using the technology where kids can visualize the animals, birds etc as a real experience. This school showed me and given me a demo of all the apps and technologies they use to teach the kids and it was so impressive.

Md Kalim Ansari belongs to Budhiyakhad, a small village in Giridih district of Jharkhand. He has been running CSC Bal Vidyalaya since 24th January 2022. I surprise to see consistency in his efforts in providing quality education through creative activities to little children in his village. He along with his educators works tirelessly to make children learn in a funfilled manner. I have seen him using technology along with simple resources and materials which are normally available in our neighborhood so interestingly that make the whole teaching-learning experience realistic.
